**ABSTRACT / POSTER**

<b>Title:</b>	<b>How is the ADCAP project and the pilot version of the Minimum Standards for Age and Disability Inclusion in Humanitarian Action aiming to meet needs and improve access for older people and people with disability in Kenya and Pakistan?</b>
---------------	---

**Abstract text (limited to 300 words, should include background, methods, results and conclusions):**

It would be a poster on the Minimum Standards for Age and Disability Inclusion in Humanitarian Action which are being piloted in Kenya and Pakistan. This has a lot of links with Disaster preparedness and recovery – thus linking with development programming. There would also be a focus on inclusion of older people and people with disability into mainstream programming – transversal across all areas of response. This is a consortium project with CBM, HI , RedR , Disaster Ready and Oxford Brookers University and ICRC, with Help Age coordination the programme activities in UK, Kenya and Pakistan.
